In Unapologetic Theology, William Placher examines religion and the search for truth in a pluralistic society. Among the issues he considers are science and its relation to belief, dialogue among various religions, and the theological method.

**Who Killed Berta Cáceres?**

"In 2015, Cáceres won the Goldman prize, the world's leading environmental award, for leading a campaign to stop construction of an internationally funded dam on a river sacred to her indigenous Lenca people. Less than a year later she was dead. Lakhani tracked Cáceres's remarkable career in the face of years of threats as friends and colleagues in Honduras were killed defending basic rights; the journalist endured threats and harassment herself as a result of investigating the murder. She was the only foreign journalist to attend the 2018 trial of Cáceres's killers, where state security officials, employees of the dam company and hired hitmen were found guilty of her murder. Many questions about who ordered and paid for the killing remain unanswered. Drawing on more than a hundred interviews, confidential legal filings, and company documents during years of reporting in Honduras, Lakhani paints an intimate portrait of an extraordinary woman in a state beholden to corporate powers, organised crime, and the United States"--

**The Source of Self-Regard**

One of the most important yet difficult skills for children with autism to learn is effective social interaction. This book introduces social skills programs to parents
of preschool- and kindergarten-aged children diagnosed with one of the Pervasive Developmental Disorders (PDD), including Autistic Disorder, Asperger's Disorder, and PDD: Not Otherwise Specified. The book is based on the authors' decades of clinical experience using Applied Behavior Analysis (ABA), a proven educational method, to teach social skills at home and school. This book focuses on four broad topics: play skills; the language of social skills; understanding another person's perspective; functioning in an inclusive classroom. This book helps parents to work with their child's strengths to improve social skills. Following the suggestions and exercises in this book, parents can teach children to: pretend-play, use toys appropriately, know when to use conventional responses like -- excuse me -- tell jokes, recognise that others' feelings and thoughts are different from their own, and initiate social interaction with peers. Included are tips for using games, modelling, rewards, role play, videos, activity schedules, and social stories to teach social skills and make the learning experience fun for parents and children. A case study of one family's efforts and successes provides a real-life example that's informative and reassuring. Appendices listing resources such as books, games, and activities give parents additional material to explore.

A Practical Guide for Medical Teachers E-Book

In October 2003, Patti Digh's stepfather was diagnosed with lung cancer. He died 37 days later. The timeframe made an impression on her. What emerged was a commitment to ask herself every morning: What would I be doing today if I had only 37 days left to live? The answers changed her life and led to this new kind of book. Part meditation, part how-to guide, part memoir, Life is a Verb is all heart. Within these pages—enhanced by original artwork and wide, inviting margins ready to be written in—Digh identifies six core practices to jump-start a meaningful life: Say Yes, Trust Yourself, Slow Down, Be Generous, Speak Up, and Love More. Within this framework she supplies 37 edgy, funny, and literary life stories, each followed by a “do it now” 10-minute exercise as well as a practice to try for 37 days—and perhaps the rest of your life.

Standoff

There are unexpected, beatific moments when Rev. Elijah Lovejoy Parish is swept up by the divine intrusion into the ordinary. Yet, he knows he cannot tarry there, for his calling also compels him to resume his shift as the traffic cop down at the intersection of Pathological and Whine. Told from the perspective of a deceased brother, freed from life's bondage to autism, Parish introduces you to the family of a young pastor and invites you to laugh and cry through the seasons of a year laced with everything from a redneck funeral that becomes a DEA sting operation to a grandfather's honorable relinquishing of his mind to senescence to an act of violence that impales the community and challenges easy Easter answers. Dismayed by rock-star-skinny-jeaned preachers preening and self-righteous demagogues decreeing, Elijah Parish balks when strangers ask him what he does for a living. Yet, he keeps at it. Why? Grace: undeserved and unsurpassed, ineffable and irrepressible. Living with the sinners and saints of St. Martin Presbyterian Church in the North Carolina foothills community of Edinburgh, Elijah and his family keep stumbling into grace as the seasons pass and as chaos dances with mercy.

Talking with Dogs and Cats

15 things you can do to save America's stories.

Educating Young Giants

Standoff is award-winning journalist Jamie Thompson's gripping account of a deadly night in Dallas, told through the eyes of those at the center of the events, who offer a nuanced look at race and policing in America. On the evening of July 7, 2016, protesters gathered in cities across the nation after police shot two black men, Philando Castile and Alton Sterling. As officers patrolled a march in Dallas, a young man stepped out of an SUV wearing a bulletproof vest and carrying a high-powered rifle. He killed five officers and wounded eleven others. It fell to a small group of cops to corner the shooter inside a community college, where a fierce gun battle was followed by a stalemate. Crisis negotiator Larry Gordon, a 21-year department veteran, spent hours bonding with the gunman—over childhood ghosts and death and shared experiences of racial injustice in America—while his colleagues devised an unprecedented plan to bring the night to its dramatic end. Thompson’s minute-by-minute account includes intimate portrayals of the negotiator, a surgeon who operated on the fallen officers, a mother of four shot down in the street, and the SWAT officers tasked with stopping the gunman. This is a deeply affecting story of real people navigating a terrifying crisis and a city's attempts to heal its divisions.

Here is Toni Morrison in her own words: a rich gathering of her most important essays and speeches, spanning four decades. These pages give us her searing prayer for the dead of 9/11, her Nobel lecture on the power of language, her searching meditation on Martin Luther King Jr., her heart-wrenching eulogy for James Baldwin. She looks deeply into the fault lines of culture and freedom: the foreigner, female empowerment, the press, money, "black matter(s)," human rights, the artist in society, the Afro-American presence in American literature. And she turns her incisive critical eye to her own work (The Bluest Eye, Sula, Tar Baby, Jazz, Beloved, Paradise) and that of others. An essential collection from an essential writer, The Source of Self-Regard shines with the literary elegance, intellectual prowess, spiritual depth, and moral compass that have made Toni Morrison our most cherished and enduring voice.

How to Start a Conversation and Make Friends

Psychology's approach to sexual orientation has long had its foundation in essentialism, which undergirds psychological theory and research as well as clinical practice and applications of psychology to public policy issues. It is only recently that psychology as a discipline has begun to entertain social constructivism as an alternative approach. Based on the belief that thoughtful dialogue can engender positive change, Conversations about Psychology and Sexual Orientation explores the implications for psychology of both essentialist and social constructionist understandings of sexual orientation. The book opens with an introduction presenting basic theoretical frameworks, followed by three application sections dealing with clinical practice, research and theory, and public policy. In each, the discussion takes the form of a conversation, as the authors first consider essentialist and constructionist approaches to the topic at hand. These thoughts, in turn, are followed by responses from distinguished scholars chosen for their expertise in a particular area. By providing an array of comments and thoughtful responses to topics surrounding psychology's approaches to sexual orientation, this valuable study sheds new light on the contrasting views held in the field and the ways in which essentialist and constructionist understandings may be applied to specific practices and policies.

Jam Cultures

Grounded in the best practices of effective writing instruction, Joining the Conversation's rhetorical approach builds an awareness of writing purposes and genres as it teaches students to read critically, research effectively, and respond thoughtfully to the conversations around them. Comprehensive assignment chapters span reflective, informative, analytical and persuasive writing, following real students throughout their writing processes. Supportive apparatus guides writers from finding a conversation to join all the way through documenting their essays. Throughout the text, with techno-literate practice at the fore,
multimodality is always an option and the conversation metaphor empowers students to make their voices heard—with their peers, in academic communities, and in the world. Based on reviewer feedback, the third edition of Joining the Conversation offers a new opening chapter on understanding yourself as a writer, more substantial academic readings on compelling subjects that matter to students, and an expanded digital option in Launchpad for Joining the Conversation. With theory put into practice, Joining the Conversation exemplifies the best of what writing instruction should be.

**Literature**

‘Facts alone are wanted in life,’ exclaims Mr Gradgrind at the beginning of Dickens’ Hard Times. Literature is not about facts alone, and – despite two and a half thousand years of arguments – no one can agree on what it is, or how to study it. But, argues Robert Eaglestone, it is precisely the open-ended nature of literature that makes it such a rewarding and useful subject. Eaglestone shows that studying literature can change who you are, turning you from a ‘reader’ into a ‘critic’: someone attuned to the ways we make meaning in our world. Literature is a living conversation which provides endless opportunities to rethink and reinterpret our societies and ourselves. With examples ranging from Sappho to Skyrim, this book shows how literature offers freer and deeper ways of thinking and being.

**The Grace of Silence**

A Bustle Most Anticipated Debut of the Year From The Guardian’s Georgina Lawton, a moving examination of how racial identity is constructed—through the author’s own journey grappling with secrets and stereotypes, having been raised by white parents with no explanation as to why she looked black. Raised in sleepy English suburbia, Georgina Lawton was no stranger to homogeneity. Her parents were white; her friends were white; there was no reason for her to think she was any different. But over time her brown skin and dark, kinky hair frequently made her a target of prejudice. In Georgina’s insistently color-blind household, with no acknowledgement of her difference or access to black culture, she lacked the coordinates to make sense of who she was. It was only after her father’s death that Georgina began to unravel the truth about her parentage—and the racial identity
that she had been denied. She fled from England and the turmoil of her home-life to live in black communities around the globe—the US, the UK, Nicaragua, Cuba, the Dominican Republic, Vietnam, and Morocco—and to explore her identity and what it meant to live in and navigate the world as a black woman. She spoke with psychologists, sociologists, experts in genetic testing, and other individuals whose experiences of racial identity have been fraught or questioned in the hopes of understanding how, exactly, we identify ourselves. Raceless is an exploration of a fundamental question: what constitutes our sense of self? Drawing on her personal experiences and the stories of others, Lawton grapples with difficult questions about love, shame, grief, and prejudice, and reveals the nuanced and emotional journey of forming one’s identity.

**Murder in the Shenandoah**

Where would we be without conversation? Throughout history, conversations have allowed us to see different perspectives, build ideas, and solve problems. Conversations, particularly academic conversations push students to think and learn in lasting ways. Academic conversations are back-and-forth dialogues in which students focus on a topic and explore it by building, challenging, and negotiating relevant ideas. [The] authors have identified five core communication skills to help students hold productive academic conversations across content areas. These skills are: elaborating and clarifying, supporting ideas with evidence, building on and/or challenging ideas, paraphrasing and synthesizing. This book shows teachers how to weave the cultivation of academic conversation skills and conversations into current teaching approaches.

**Summary: Word of Mouth Marketing**

Jay Parini (b. 1948) is best known for his novel about Leo Tolstoy’s last year, The Last Station, which has been translated into more than twenty-five languages and made into a Hollywood film. But he has also published numerous volumes of poetry; biographies of William Faulkner, Robert Frost, and John Steinbeck; novels; and literary and cultural criticism. This book contains the most important interviews with the former Guggenheim fellow; a former Fowler Hamilton Fellow at Christ Church, Oxford; and a former fellow of the Institute for Advanced Studies at the University of London. Parini’s work is valuable not just because of its high quality and intellectual range. Parini’s life and writings often seem like a seminar table, with friends gathered, talking and trading stories. He has openly written poems in conversation with writers he knew personally: Robert Penn Warren, Gore Vidal, Jorge Luis Borges, and others. He has, in his own life, kept an ongoing conversation with many literary friends over the years—Alastair Reid, Seamus Heaney, Anne Stevenson, Ann Beattie, Julia Alvarez, Peter Ackroyd, A. N. Wilson, and countless others. These interviews offer a more comprehensive understanding of Parini’s work as a poet, scholar, public intellectual, literary critic, intellectual historian, biographer, novelist, and biographical novelist. More importantly, these interviews will contribute to our understanding of the history of ideas, the condition of knowledge, and the state of literature, all of which Parini has played an important role in shaping.

NEW YORK TIMES BESTSELLER Greg Gutfeld wants to be your new guru, and he hates himself for it. Before Greg Gutfeld was a Fox News star and a New York Times bestselling author, he was a self-help writer for health magazines who had no idea what he was talking about. But now, after years of experience, he finally feels qualified to guide people on the journey of life—call this book punishment for his sins, and a huge reward for you! In The Plus, Greg teaches you how to brainwash yourself into better behavior, retaining the pluses in your life and eliminating the minuses. His approach to self-help is simple, and perfect for cynics; it’s not about positive thinking in the short term, it’s about positive being in the long term. With tough love and more than a little political incorrectness, he delivers sage wisdom such as: -If you aren’t getting happier as you’re getting older, you’re doing it wrong. -Resist the media’s command to expand destructive narratives. -If you’re in the same place you were three years ago, wake up. -Don’t tweet when drinking. Modern life grows emptier and emptier as society becomes increasingly polarized, and even those who don’t subscribe to New Age beliefs are seeking comfort and meaning. In The Plus, Greg shows how skeptics too can advance themselves for the betterment of their lives and the healing of their communities.

The Plus

A Publishers Weekly Best Book of 2019 Why do we make things by hand? And why do we make them beautiful? Led by the question of why working with our hands remains vital and valuable in the modern world, author and maker Melanie Falick went on a transformative, inspiring journey. Traveling across continents, she met quilters and potters, weavers and painters, metalsmiths, printmakers, woodworkers, and more, and uncovered truths that have been speaking to us for millennia yet feel urgently relevant today: We make in order to slow down. To connect with others. To express ideas and emotions, feel competent, create something tangible and long-lasting. And to feed the soul. In revealing stories and gorgeous original photographs, Making a Life captures all the joy of making and the power it has to give our lives authenticity and meaning.

Online social media are changing the face of politics in the United States. Beginning with a strong theoretical foundation grounded in political, communications and psychology literature, Tweeting to Power examines the effect of online social media on how people come to learn, understand and engage in politics. Gainous and Wagner propose that platforms such as Facebook and Twitter offer the opportunity for a new information flow that is no longer being structured and limited by the popular media. Television and newspapers, which were traditionally the sole or primary gatekeeper, can no longer limit or govern what information is exchanged. By lowering the cost of both supplying the information and obtaining it, social networking applications have recreated how, when and where people are informed. To establish this premise, Gainous and Wagner analyze multiple datasets, quantitative and qualitative, exploring and measuring the use of social media by voters and citizens as well as the strategies and approaches adopted by politicians and elected officials. They illustrate how these new and growing online communities are new forums for the exchange of information that is governed by relationships formed and maintained outside traditional media. Using empirical measures, they prove both how candidates utilize Twitter to shape the information voters rely upon and how effective this effort was at garnering votes in the 2010 congressional elections. With both theory and data, Gainous and Wagner show how the social media revolution is creating a new paradigm for political communication and shifting the very foundation of the
political process.
