Hitler Youth: Growing Up in Hitler's Shadow

As an increasingly polarized America fights over the legacy of racism, Susan Neiman, author of the contemporary philosophical classic Evil in Modern Thought, asks what we can learn from the Germans about confronting the evils of the past In the wake of white nationalist attacks, the ongoing debate over reparations, and the controversy surrounding Confederate monuments and the contested memories they evoke, Susan Neiman’s Learning from the Germans delivers an urgently needed perspective on how a country can come to terms with its historical wrongdoings. Neiman is a white woman who came of age in the civil rights-era South and a Jewish woman who has spent much of her adult life in Berlin. Working from this unique perspective, she combines philosophical reflection, personal stories, and interviews with both Americans and Germans who are grappling with the evils of their own national histories. Through discussions with Germans, including Jan Philipp Reemtsma, who created the breakthrough Crimes of the Wehrmacht exhibit, and Friedrich Schorlemmer, the East German dissident preacher, Neiman tells the story of the long and difficult path Germans faced in their effort to atone for the crimes of the Holocaust. In the United States, she interviews James Meredith about his battle for equality in Mississippi and Bryan Stevenson about his monument to the victims of lynching, as well as lesser-known social justice activists in the South, to provide a compelling picture of the work contemporary Americans are doing to confront our violent history. In clear and gripping prose, Neiman urges us to consider the nuanced forms that evil can assume, so that we can recognize and avoid them in the future.

In this quiet and devastating novel about the rise of fascism, Siggi Jepsen, incarcerated as a juvenile delinquent, is assigned to write a routine German lesson on the “The Joys of Duty.” Overfamiliar with these joys, Siggi sets down his life since 1943, a decade earlier, when as a boy he watched his father, a constable, doggedly carry out orders from Berlin to stop a well-known Expressionist artist from painting and to seize all his “degenerate” work. Soon Siggi is stealing the paintings to keep them safe from his father. “I was trying to find out,” Lenz says, “where the joys of duty could lead a people.” Translated from the German by Ernst Kaiser and Eithne Wilkins

**One Flag, One Land: Teacher planning guide**

She was a young German Jew. He was an ardent member of the Hitler Youth. This is the story of their parallel journey through World War II. Helen Waterford and Alfons Heck were born just a few miles from each other in the German Rhineland. But their lives took radically different courses: Helen’s to the Auschwitz extermination camp; Alfons to a high rank in the Hitler Youth. While Helen was hiding in Amsterdam, Alfons was a fanatic believer in Hitler’s “master race.” While she was crammed in a cattle car bound for the death camp Auschwitz, he was a teenage commander of frontline troopes, ready to fight and die for the glory of Hitler and the Fatherland. This book tells both of their stories, side-by-side, in an overwhelming account of the nightmare that was WWII. The riveting stories of these two remarkable people must stand as a powerful lesson to us all.

**Parallel Journeys**

“A harrowing account of the profoundly consequential decisions American universities made about refugee scholars from Nazi-dominated Europe. The United States' role in saving Europe's intellectual elite from the Nazis is often told as a tale of triumph, which in many ways it was. America welcomed Albert Einstein and Enrico Fermi, Hannah Arendt and Herbert Marcuse, Rudolf Carnap and Richard Courant, among hundreds of other physicists, philosophers, mathematicians, historians, chemists, and linguists who transformed the American academy. Yet for every scholar who survived and thrived, many, many more did not. To be hired by an American university, a refugee scholar had to be world-class and well connected, not too old and not too young, not too right and not too left and, most important, not too Jewish. Those who were unable to flee were left to face the horrors of the Holocaust. In this rigorously researched book, Laurel Leff rescues from obscurity scholars who were deemed "not worth saving" and tells the riveting, full story of the hiring decisions universities made during the Nazi era.”--Provided by publisher.

While we often tend to think of the Third Reich as a zone of lawlessness, the Nazi dictatorship and its policies of persecution rested on a legal foundation set in place and maintained by judges, lawyers, and civil servants trained in the law. This volume offers a concise and compelling account of how these intelligent and well-educated legal professionals lent their skills and knowledge to a system of oppression and domination. The chapters address why German lawyers and jurists were attracted to Nazism; how their support of the regime resulted from a combination of ideological conviction, careerist opportunism, and legalistic self-delusion; and whether they were held accountable for their Nazi-era actions after 1945. This book also examines the experiences of Jewish lawyers who fell victim to anti-Semitic measures. The volume will appeal to scholars, students, and other readers with an interest in Nazi Germany, the Holocaust, and the history of jurisprudence.

**The Boy Who Dared**

During the Second World War, three prominent members of the Frankfurt School--Franz Neumann, Herbert Marcuse, and Otto Kirchheimer--worked as intelligence analysts for the Office of Strategic Services, the wartime forerunner of the CIA. This book brings together their most important intelligence reports on Nazi Germany, most of them published here for the first time. These reports provide a fresh perspective on Hitler's regime and the Second World War, and a fascinating window on Frankfurt School critical theory. They develop a detailed analysis of Nazism as a social and economic system and the role of anti-Semitism in Nazism, as well as a coherent plan for the reconstruction of postwar Germany as a democratic political system with a socialist economy. These reports played a significant role in the development of postwar Allied policy, including denazification and the preparation of the Nuremberg Trials. They also reveal how wartime intelligence analysis shaped the intellectual agendas of these three important German-Jewish scholars who fled Nazi persecution prior to the war. Secret Reports on Nazi Germany features a foreword by Raymond Geuss as well as a comprehensive general introduction by Raffaele Laudani that puts these writings in historical and intellectual context.

With The Third Reich Sourcebook, editors Anson Rabinbach and Sander L. Gilman present a comprehensive collection of newly translated documents drawn from wide-ranging primary sources, documenting both the official and unofficial cultures of National Socialist Germany from its inception to its defeat and collapse in 1945. Framed with introductions and annotations by the editors, the documents presented here include official government and party pronouncements, texts produced within Nazi structures, such as the official Jewish Cultural League, as well as documents detailing the impact of the horrors of National Socialism on those who fell prey to the regime, especially Jews and the handicapped. With thirty chapters on ideology, politics, law, society, cultural policy, the fine arts, high and popular culture, science and medicine, sexuality, education, and other topics, The Third Reich Sourcebook is the ultimate collection of primary sources on Nazi Germany.
