The Uninvited Corpse

In the late 1960s, African American protests and Black Power demonstrations in California's Santa Clara County—including what's now called Silicon Valley—took many observers by surprise. After all, as far back as the 1890s, the California constitution had legally abolished most forms of racial discrimination, and subsequent legal reform had surely taken care of the rest. White Americans might even have wondered where the black activists in the late sixties were coming from—because, beginning with the writings of Fredrick Jackson Turner, the most influential histories of the American West simply left out African Americans or, later, portrayed them as a passive and insignificant presence. Uninvited Neighbors puts black people back into the picture and dispels cherished myths about California's racial history. Reaching from the Spanish era to the valley's emergence as a center of the high-tech industry, this is the first comprehensive history of the African American experience in the Santa Clara Valley. Author Herbert G. Ruffin II's study presents the black experience in a new way, with a focus on how, despite their smaller numbers and obscure presence, African Americans in the South Bay forged communities that had a regional and national impact disproportionate to their population. As the region industrialized and spawned suburbs during and after World War II, its black citizens built institutions such as churches, social clubs, and civil rights organizations and challenged socioeconomic restrictions. Ruffin explores the quest of the area's black people for the postwar American Dream. The book also addresses the scattering of the black community during the region's late yet rapid urban growth after 1950, which led to the creation of several distinct black suburban communities clustered in metropolitan San Jose. Ruffin treats people of color as agents of their own development and survival in a region that was always multiracial and where slavery and Jim Crow did not predominate, but where the white embrace of racial justice and equality was often insincere. The result offers a new view of the intersection of African American history and the history of the American West.

Who IS the uninvited? This twisty page-turner from a master of suspense plumbs the unsettling goings-on at a picture-perfect woodland cottage. Mimi Shapiro had a disturbing freshman year at NYU, thanks to a foolish affair with a professor who still haunts her caller ID. So when her artist father, Marc, offers the use of his remote Canadian cottage, she’s glad to hop in her Mini Cooper and drive up north. The house is fairy-tale quaint, and the key is hidden right where her dad said it would be, so she’s shocked to find someone already living there — Jay, a young musician, who is equally startled to meet Mimi and immediately accuses her of leaving strange and threatening tokens inside: a dead bird, a snakeskin, a cricket sound track embedded in his latest composition. But Mimi has just arrived, so who is responsible? And more alarmingly, what does the intruder want? Part gripping thriller, part family drama, this fast-paced novel plays out in alternating viewpoints, in a pastoral setting that is evocative and eerie -- a mysterious character in its own right.

AN Uninvited Ghost

It should have been routine. Nothing could go wrong. The anode and the cathode were behaving perfectly. The meters and dials were recording accurately. A faint effervescence stirred in the chemical solution. There was a subtle change in the speed - the experiment seemed to freeze in its tracks - the stream of gentle bubbles hovered motionless. Something inexplicable was appearing in the solution. The scientist peered harder at the vessel. It couldn't be. It was impossible. It was incredible—but it had happened! A woman's face smiled at him from the depths of the glass tank! But the face was translucent, he could see tank and solution despite its contours. "Hello, Earthman," said the face from Nowhere. He clapped a hand to his forehead and collapsed insensible. When he came to, the experiment was back to normal. What had happened? Was it all in his mind? Or had he really made contact with an alien?

The Uninvited

A seven-year-old girl puts a nail gun to her grandmother's neck and fires. An isolated incident, say the experts. The experts are wrong. Across the world, children are killing their families. Is violence contagious? As chilling murders by children grip the country, anthropologist Hesketh Lock has his own mystery to solve: a bizarre scandal in the Taiwan timber industry. Hesketh has never been good at relationships: Asperger's Syndrome has seen to that. But he does have a talent for spotting behavioral patterns and an outsider's fascination with group dynamics. Nothing obvious connects Hesketh's Asian case with the atrocities back home. Or with the increasingly odd behavior of his beloved stepson, Freddy. But when Hesketh's Taiwan contact dies shockingly and more acts of sabotage and child violence sweep the globe, he is forced to acknowledge possibilities that defy the rational principles on which he has staked his life, his career, and, most devastatingly of all, his role as a father. Part psychological thriller, part dystopian nightmare, The Uninvited is a powerful and viscerally unsettling portrait of apocalypse in embryo.

The Uninvited

Plato's Symposium depicts a group of men giving a series of speeches about the nature of love, with themes ranging from religion and metaphysics to medicine and pregnancy. The lone woman in the room, a “flute girl,” is sent away as the discussion turns to serious matters; at the same time, the wisest of the men attributes his theories to a woman, the possibly fictional Diotima. Despite their absence from this important intellectual exchange, women are part of Symposium. What can contemporary feminist readers do with this troubling yet immeasurably influential work? In Uninvited historian Carla Nappi and philosopher Carrie Jenkins talk back to Plato in poetry, inspired by the voices of women characters who were not previously permitted to speak. Sometimes beautiful, sometimes horrific, these poems dance within and between the lines of Symposium, carving space for new kinds of conversations about love, with themes ranging
from gender and voice to power and violence. Designed to be read with or without prior knowledge of Plato, this book invites the uninvited to join a strange, amorphous, and unending conversation on the nature of love and desire - and on the possibilities intellectual and creative activity can offer.

At first the manifestations were minor. UFOs were sighted in the area, huge burnt patches were found in the fields, television sets and cars blew all of their wiring but before long the Coombs family was visited by weird lights, huge white figures and a glowing disembodied hand. Their lives were disrupted and they were terrified by something unidentifiable and unimaginable. They were a focus for The Uninvited. For the first time, the book has been revised, fixed and renewed with all new additional content and digitally enhanced photographs.
